## **DETAILED ACTION**

### ***Specification***

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Claim Objections***

2. Claims 6-11 are objected to under 37 CFR 1.75 as being a substantial duplicate of claims 12-17, respectively. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

### ***Allowable Subject Matter***

3. Claims 6-24 are allowed.

4. The following is an examiner's statement of reasons for allowance: The references of the Prior Art of Record fail to teach or suggest alone or in obvious combination all of the features of the applicants' invention as claimed in the independent claims 6 and 12. Specifically, the Prior Art does not teach the condition of  $2Th < Td < 6Th$  in combination with the recited structural limitations of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO-892.

6. This application is in condition for allowance except for the following formal matters:  
- Objection to claims 6-11 (duplicate claims).

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
